

## **Notice**

### **All Surveying Graduates who were selected for practical training at the Institute of Surveying and Mapping (ISM),**

As you have been already informed, you have been selected for the in-house practical training at ISM.

Throughout these three months of practical training, you have to use the internet and browse our department's websites to download digital copies of department regulations.

Though, we have a computer lab in our institute, this facility will be limited due to ongoing academic courses. Therefore, it will be very useful for you to bring a laptop when you report to the institute on 16th January 2023.
